

UNITED STATES BANKRUPTCY COURT
SOUTHERN DISTRICT OF NEW YORK

Chapter 11

Case No: 22-10943 (MEW)

Judge Wiles

In re:

VOYAGER DIGITAL HOLDINGS INC., et al.,

Debtors.

**REPONSE TO CLAIM AMOUNT AND WHAT MY CLAIM AMOUNT SHOULD BE
ACCORDING TO THE CALCUATIONS PROVIDED BY KIRKLAND AND ELLIS**

To begin,

I would like to note that Exhibit A-1 is wrong. It states coin purchases, these were not purchases and transfers from another wallet. Please see page 13 DOC 1254. I'm not saying there committing fraud or anything but, they are wrong, and this is false reporting. A very punishable office I believe, and this seems to be extortion, bribery, punitive damages should be paid to us creditors' but well talk about that later at another time and date because, we all know how punctual and very important time is regarding this bankruptcy case. Some call it a Ponzi scheme, some call it theft, regardless, and none the less, this is against the very nature and content of the Chapter 11 filing. Over 8 months and the only money going out is to that man who failed the

creditors, and Voyager Digital Holdings INC. et., al., 1, but most of all the money to these baseless and useless firms that have no creditor benefit whatsoever. Third party LLC'S manipulated by the powers that be. Let's not even begin to go back and mention how my crypto transfer was not even validated on the blockchain. That's fraud and manipulation and misuse of customers funds right there. Hello, where is the SEC, Mr. Gary Gensler, where are you? Why is FTX recovering funds before Voyager, and they caused all this chaos? Where is the criminal indictments, oh I know they tried to scam us out of it and not be responsible.

None the less, back to the issue at hand about my claim amount. Now, for the ADA calculations. November 9 there was a deposit of 3,512.5 ADA. Now, if we look at my reward for July 1, 11:07 am it says my annual %r ate was 3 and my average daily balance was 3,591.9 ADA. When did they file for bankruptcy again? Doesn't make sense right. Now, let's do simple map.

If my reward rate for the month of December which was cleared on the first was 4.50% and my correct balance should have been $3,512.5 \times 4.50\%$ divided by 12 months would give us, 4.50% divided by 12 months would give us $0.00375 \times 3,512.5 = 13.171875$ as my reward amount. $13.171875 + 3,512.5 = 3,525.67188$ ADA. Now let's take my correct balance and add the month of January 1 at 4:29 PM. $3,525.67188 \times 0.00375 = 13.2212695$ in rewards. So $3,525.67188 + 13.2212695 = 3,538.89315$ ADA. Now let's look at February 1, 12:24 PM. Same rate and the daily balance should be 3,538.89315. so, $3,538.89315 \times 0.00375 = 13.2708493$ in rewards. So $3,538.89315 + 13.2708493 = 3,552.164$ ADA. Now for the month of March at 3:39 AM, the rate dropped so 4.00% divided by 12 months gives us 0.00333333. with that, $3,552.164 \times 0.00333333 = 11.8405467$ in rewards. So, $3,552.164 + 11.8405467 = 3564.00455$ ADA.

NOW, IN April, at 4:51 AM. The rate was 4.00% so $3564.0045 \times 0.00333333 = 11.8800031$ in rewards. $3,564.0045 + 11.8800031 = 3,575.8845$ in ADA May 1 3:04 PM, annual rate decreased again month after month, anyways, the rate was 3.50 %. So, $3,575.8845 \times 0.00291667 = 10.429675$ in rewards. $3,575.8845 + 10.429675 = 3,586.31418$ ADA. As for the month of June 11:01 AM, the daily balance should have been $3,586.31418 \times 0.00291667 = 10.460095$ in rewards. So that plus the daily balance should have been 3,596.77427 ADA. Now the disastrous month, July 1 11:07 Am the rate was 3.00 % and the average daily balance should have been 3,596.77427 ADA. So, $3,596.77427 \times 0.0025 = 8.99193568$ in rewards; In total, showing my ADA balance should be 3,605.76621.

Now for the Ethereum calculations

Nov 9, deposit of 4.03768 ETH. December the rate was 4.60 [0.38333333 in rewards] which would be 4.05315777 ETH after my rewards. I think you get the picture here judge it would just be a waste of writing and time if I were to continue based off their own calculations you can see that they have made a mistake and I request the relief of this to be fixed and my claim amount updated accordingly.

Submitted,

Alex Shehadeh
